Education

Rutgers, The State University of New Jersey — *New Jersey, USA*
Master of Science in Computer Science — *Jan 2025 - May 2026*

Guru Gobind Singh Indraprastha University — *New Delhi, India*
Bachelor of Technology in Information Technology — *Aug 2017 - Jul 2021*

Experience

RUTGERS UNIVERSITY — *New Jersey, USA*
Graduate Teaching Assistant — *Jan 2026 - May 2026*

- Responsible for grading and assisting students for Machine Learning (CS:454) and Operating System (CS:341) course.

Senior Information Technology Consultant — *Mar 2025 - May 2026*

- Built interactive features for a **full-stack** study room reservation system using role-based access, form validation, and asynchronous API, enabling real-time availability and seamless booking experience.
- Automated student lifecycle processes in **education cloud** by building flows, lightning web components, and triggers to generate program enrollments on admission, update statuses, and trigger students & staff notifications.

SALESFORCE — *Hyderabad, India*
Technical Support Engineer — *Sep 2022 - Jan 2025*

- Developed scalable **Sales & CPQ solutions** supporting lead-to-cash and quote-to-cash processes, covering lead qualification, opportunity management, product configuration, and pricing.
- Led the design and implementation of an enterprise **discount-approval framework**, integrating margin thresholds, exception handling, escalation paths, and reapproval logic to strengthen pricing governance across complex sales transactions.
- Designed and configured **data pipelines** across variety of systems leveraging Mulesoft to handle complex integrations and streamline data flow so the team has clean, synchronized data to analyze performance and surface improvements.
- Implemented AI-powered service workflows using **Agentforce**, Salesforce Knowledge, and Service Cloud to retrieve relevant support content, summarize customer cases, recommend resolutions, and automate routine service actions.
- Built fault-tolerant **REST/SOAP integrations** between Salesforce and external enterpise platforms with idempotent upserts via external IDs, retry with backoff, and centralized logging, eliminating duplicate records from failed callouts.
- Leveraged **Data 360** calculated insights and customer engagement data to surface account-value indicators, identify cross-sell opportunities, and support data-driven lead and opportunity prioritization.

COFORGE — *Noida, India*
Software Engineer — *Sep 2021 - Sep 2022*

- Analyzed existing sales quoting workflows and implemented **CPQ price rule logic** to automate product-specific discount conditions, eliminating manual quote configuration and introducing a governed, rules-driven pricing framework.
- Developed a custom Salesforce **Knowledge recommendation panel** in the Service Console using SOSL to surface relevant articles based on case subject and product, enabling one-click article association and reducing average case handling time by 40%.
- Implemented security configurations and access governance within Salesforce to maintain compliance with organizational standards, while working with cross-functional teams to deliver tailored platform enhancements.

Personal Projects

Meet AI Built an AI-powered assistant that joins your meetings, generates transcripts, summaries and answer all your queries. *here*

Nodebase A node-based workflow automation platform to streamline processes and connect apps through intuitive automations. *here*

ServiceHub SaaS-based web platform that delivers location-based services and solutions in a single unified application. *here*

Skills & Certifications

Languages	Apex, Java, Python, C++, HTML, CSS, JavaScript, SQL
Technologies	AWS, Azure, GCP, Docker, Git, Jira, React, MySQL, MongoDB
Salesforce	Sales Cloud, Service Cloud, Salesforce CPQ, Data 360, CRM Analytics, Mulesoft, Agentforce, Apex Triggers, Lightning Web Components, Aura Components, Workflows, Visualforce Pages, Process Builder, Asynchronous Apex, Lightning Flows, Platform Events, Workbench, Data Loader, Reports & Dashboards, REST/SOAP API, SOQL
Certifications	**Platform Developer I & II, Administrator, Advanced Administrator, App Builder, Agentforce Sepcialist, JavaScript Developer, Sales Cloud Consultant, Sharing & Visibility Architect, Data Architect, Application Architect**
